

## Out of the Box : Otterbox's Newest Cooler

Otterbox has recently come out with something a little out of the box, literally. The company, best known for their durable smartphone and tablet cases, has an entire line of outdoor products ranging from coolers, to dry bags, to even drink-ware. In this outdoor range, they have just recently come out with their newest soft cooler, the Trooper 12 Soft Cooler. This new cooler is a 12 quart, lightweight soft cooler designed to keep all of your items fresh. The company states that the new cooler is multipurpose and can be used as anything from a lunchbox to your road trip cooler.

The cooler sports multiple unique features, specifically designed to allow users the ultimate outdoor experience. It is made with TPU coated nylon and contains a IP66 leak-proof seal to keep the elements off your food and drink. It has premium-grade thermal insulation that helps to keep ice safe for up to approximately three days. This insulation includes a heavy-duty base that helps defend against any punctures. All but guaranteeing that nothing is going to penetrate this cooler and get to the contents inside. Its compact design allows for easy traveling and mobility, with their website listing dimensions as 11" L x 14.25" W x 12.5" D.

The adventurer in the market for a soft cooler of this nature will most likely enjoy it's customizable design. Allowing for personalization to the user's own personal style. Accessories included with the cooler is a free bottle opener, able to attach to the cooler itself. Additional accessories that are available for the cooler are a mounting system, a collapsible storage container, Otter Ice, and a Drybox Clip. There are also built in strap carrying options for both the handle and the shoulder that users can further customize for a cooler all their own.

Backed by an Otterbox Lifetime Warranty, anyone looking for a reliable and durable outdoor cooler will be eager to get their hands on the grab-and-go cooler. The higher price tag might intimidate some, with it being listed on their website at approximately \$199.99 at this time. Otterbox has an impeccable record for durable products, so buyers can rest assured they will have a reliable product they can depend on for years to come.
